

Thank you for inquiring about our home. Our home provides many areas for our residents and family to enjoy. On the south side of our facility, we have a large courtyard and gazebo area, as well as a picnic shelter house. These provide a relaxing outdoor environment for many to enjoy. Inside the facility you will find a beautiful living room with a large screen television, couches, and fireplace.

We also have a family room equipped with a large screen television and a computer that is connected to Skype to enable long distance audio and visual communication. In the dining room is a large aviary with many birds, as well as a special family seating area to enjoy a private meal with your loved ones. Our home also offers an in-house beauty shop as well as many other amenities listed on the enclosed brochure. Our many activities range from Bingo, to cards, to musical acts, and community outings.

At the IOOF Home and Community Therapy Center we help our residents to reach their maximum potential. Our therapy unit offers physical, occupational and speech therapy. We have well-trained, reliable and experienced therapy staff, as well as an excellent restorative therapy program. We believe in person directed care (PDC). We provide transportation to accommodate residents in travelling to and from appointments and community outings.

Attached you will find a move-in preference guide, a medical information release to be signed by the applicant or responsible party, and a list of items you should bring with you. Our daily rate covers all nursing care, linens, laundry, housekeeping, meals, activities and social services. We offer three levels of care including skilled care, intermediate care, and memory care.

We take pride in our facility and our residents. We offer a highly trained and experienced staff to care for the needs of the people we serve. We are truly a home away from home, and appreciate the interest you have shown in our facility. If you have any questions, please feel free to call.

Thank you for your interest
